

Best-in-class
content covering
hundreds of
technology topics

ITPro

"I use Books24x7 whenever I need a quick answer or solution to a computing issue. I log into Books24x7 before I use any other search engine or web site. The ITPro resources have been invaluable."

SR. STAFF SOFTWARE ENGINEER,
Lockheed Martin IS & GS

Delivering the ultimate in IT and technical reference

ITPro™, an on-demand collection from Books24x7®, provides technology professionals with the ultimate solution for enhancing productivity, learning and reference. Subscribers receive complete access to the unabridged contents of thousands of books, documents and more in a fully searchable, Web-based environment.

ITPro offers recent, relevant, best-in-class reference materials in the broadest and deepest information repository possible, ensuring that users can find the answers they need when they need them. Millions of IT and technical professionals around the world use ITPro to meet important business objectives, answer challenges and gain insight into the most current technologies, programs and practices.

Access to the full text of thousands of titles

For over 10 years ITPro has supported organizations in finding trusted information "anywhere, anytime". Highly optimized search capabilities, a Books24x7 On the Go™ mobile-accessible site, personal folders and customizable notes and bookmarks are all accommodated on the Books24x7 On Demand Platform. With Books24x7 users can search, browse and view every word, figure, table and code example from a vast array of titles, enabling them to:

- Prepare for the latest certification exam objectives
- Create standout Web pages and robust, scalable Web applications
- Perform statistical methods, data-driven analytics and modeling
- Network, troubleshoot and configure secure routers, clients and servers

Better Informed Decisions

- Obtain guidance, tips and workarounds on various programs and tools
- Implement networking protocols and develop real-world applications
- Apply best-practice principles for successful software management
- Understand software testing techniques, processes and models
- Build and maintain a data warehouse that integrates seamlessly with e-business requirements

Expert resources spanning the spectrum of technology topics

ITPro's software, IT and technology content arms users with valuable explanations, proven techniques and in-depth coverage on subjects such as C#, Java, SOA, SQL, AJAX, CISA/CISM, Linux, IT governance, A+ certification, e-commerce, virtualization, data mining, Microsoft® technologies, system administration, Web services and much more. Comprehensive titles present concepts in several perspectives and instructional formats to best serve diverse learning styles and experience levels. Select titles also feature LiveTables™, a Books24x7 productivity tool enabling users to save and download tables into any commonly used spreadsheet application for ready reference and manipulation. Topics covered include:

- Certification & Compliance
- Databases
- Computer Science
- Desktop & Office Applications
- Enterprise Computing
- Graphic Design & Multimedia
- Hardware
- IBM Technologies
- Internet & Web Development
- Networks & Protocols
- Operating Systems
- Oracle Technologies
- Programming Languages
- Security
- Software Engineering
- Telecommunications

Value Added Benefits

Code Listings

Code segments within ITPro titles are fully searchable for any variable, expression, statement and more, allowing users to immediately apply results and efficiently develop applications.

New Title Notifications / RSS

Users are notified of new content added weekly by "New Title Notification" email alerts that can be personalized to provide information on only the topics they are interested in. RSS feeds enable users to be kept apprised of specific-interest titles without the need for email messages.

Industry Leading Publishers

ITPro commands the very best titles from Apress, Elsevier Science & Technology Books, IBM Press, John Wiley & Sons, McGraw-Hill, Microsoft Press, Oracle Press, Wrox Press and over 120 others. This diverse publisher list ensures coverage across a wide range of technology topics, skill levels and instructional styles.
